COMMUNITY REINVESTMENT AREAS (CRA)  
INFORMATION SHEET  
(Revised June 2016)

## What is a Community Reinvestment Area (CRA)?

- The Community Reinvestment Area program is an economic development tool administered by the City that provides real property tax exemptions for property owners who renovate existing or construct new buildings.
- CRAs are areas of land in which property owners can receive tax incentives for investing in real property improvements.
- Approved projects receive tax abatement on the increase in their property's tax valuation for a specified time period. The tax abatement period begins the calendar year after:
  1. Certification is forwarded to the County Auditor's Office, and
  2. A change in the property's tax valuation has occurred due to the new improvements.

## What must the improvements cost to be eligible, what are the exemption levels and what are the terms of the exemptions?

CRA PROGRAM BENEFITS		
Exemption Levels	Pre-July 1, 1994 CRA	Post-July 1, 1994 CRA
Real Property	Must be 100%	Up to 100%**
Personal Property	None	None
Inventory	None	None
** The exemption percentage and term for commercial and industrial projects are to be negotiated on a project specific basis. If the proposed exemption exceeds 50%, local school district consent is required unless the legislative authority determines, for each year of the proposed exemption, that at least 50% of the amount of the taxes estimated that would have been charged on the improvements if the exemption had not taken place will be made up by other taxes or payments available to the school district. Upon notice of a project that does not meet this standard, the board of education may approve the project even though the new revenues do not equal at least 50% of the projected taxes prior to the exemption.

## What improvements are eligible for tax abatement?

- Major improvements or a combination of minor improvements and general maintenance items may increase the taxable value of the property and result in CRA eligibility. Below are examples of major improvements that may qualify for tax abatement:

  - > New construction
