About Us !

While the SCEDC is funded by both Private and Public Investors, you do not have to be an investor of the SCEDC to utilize our resources. The SCEDC is committed to expanding our small business engagement to ensure small businesses have the tools needed for success to grow our entrepreneurial ecosystem.

**Small
Business.**

Big Impact.

SMALL BIZ INITIATIVES

SizeUp Sandusky County

Access to data that drives the growth of your business. Search SizeUp and gain instant access to local & sector-specific data, allowing you to make informed business decisions. Explore suppliers and competition, ways to optimize your marketing, key demographics, and customers. With SizeUp you can escalate your Sandusky County business or find numerous reasons to establish one here. SizeUp can be found under the Small Business Tab under Small Business Assistance.

The Pitch

The Pitch business competition will engage a diverse group of individuals with different perspectives to come together to work on developing their business. The Pitch competition will accelerate entrepreneurship, foster economic growth, and deepen small business relationships while engaging the communities throughout Sandusky County. The Pitch will be launching in 2023. More information will become available under the Small Business tab.

Grants and Financing

Discover over 25+ funding opportunities that are available for Ohio Small Businesses. The list contains SBA, regional, and local grants and possible funding opportunities. This can be found under the small business tab then under funding opportunities.

SMALL BIZ INITIATIVES

YouScience

ouScience – Don't Miss this Opportunity to Connect your Business to Students!

Through the work of the Sandusky County Business Advisory Council that is put on by the SCEDC and the North Point Educational Service Center, five of our Sandusky County School Districts are now subscribed to a new resource to help connect our labor pool to our local Sandusky County companies through the platform – YouScience. Now, for the first time, companies are being permitted to register on the YouScience system, making your company more visible to high school students! The Employer Connection Portal is a platform to assist Sandusky County students to become aware and better understand the businesses in our community.

YouScience is an aptitude-based career guidance tool being used by our Sandusky County School Districts to help students identify best-fit careers. This assessment is not just a career interest-based assessment like what has typically been used in the past. YouScience lets students know what they are naturally good at and what careers align with their aptitude! YouScience can be found under the Workforce Tab under THINK Workforce Activities.

Buildings and Sites

The SCEDC lists available buildings and sites throughout Sandusky County on our website to help both new and current businesses find a location that suits their needs. Contact the SCEDC to have your building listed or for help in finding your next opportunity! This can be found under the sites tab and then under Buildings and Sites.
